

# MAGNOLIA Getting Started

- Start with the Mid-Mississippi Regional Library System's Homepage: <http://www.mmrls.lib.ms.us/>
- Click on "E-Resources" then Magnolia
- Enter magn1171 as the username

- Choose a database by name (by clicking Full A-Z List) or by subject. (You may have to click on several links to see the search box as pictured below depending on your database selection.)
- Once you've chosen your database, enter your search term in the search box. You can limit your results to full text only by clicking the box next to Full Text under Limit Your Results.

- You can also limit your results after you do a search. Options to limit by full text, year, source (magazine, newspaper, etc) run along the left side of the results screen.
- When you find an article you like, you have the option of putting it in a folder or printing, emailing, or saving it. While you can put something in a folder without logging in, if you close your browser window, you will lose the items in your folder. To be able to access your materials another time, you must create an account with EBSCO. To create an account, click on Sign In at the very top of the screen in blue, then click on Create a new Account.

- Questions? Call your local Mid-Mississippi Regional Library System branch.
